

Aquabot competition: Judges Question Sheet

Team:

School:

1) What skills proved most important when it came to delivering a working aquabot? What skills did you need to learn?	
2) What were the more difficult challenges you faced as a team? How did you overcome them?	
3) Talk about the team effort. Who contributed what? What strengths did each team member bring?	
4) Speak about some of the things you have learned from this project.	
5) Tell us about the modifications your team made to the aquabot to meet the second and fourth challenges. Include costs, difficulties etc.	
6) If you were starting again tomorrow, what would you do differently? What advice will you give next year's entrants from your school?	

All answers to be marked out of ten. All team members to answer at least one question. Articulation, content and thoughtfulness of answers all to be considered towards the final score.
